PROJECTS

PORTFOLIO WEBSITE: <https://joannamakary.github.io/portfolio-website/>

DISCORD BOT (2018): A bot with simple commands by using the Discord.js module (for Node.js) to interact with the Discord API. Object-oriented and promise-based.

PHP/JAVASCRIPT/MYSQL ART STORE WEBSITE (2018): Mock website that displays artworks, artists, and museums. Ability to “purchase” with shopping cart, search for artworks, maintain database through GUI, and view detailed “product view” page of each item.

BACKBONE DEMO WEBPAGE (2017): A website created to provide information on the MVC Framework Backbone, providing details, examples on how to use it and how it works.

WORK EXPERIENCE

PR CREATIVE CATERERS

Graphic Designer, Data Administrator, Social Media Manager

North York, ON

May 2017 - Present

- Edit the company website to fix any UI issues (HTML/CSS)
- Create visual products such as advertisements for social media and menus to meet client’s objectives
- Reviewing data for errors, verifying accuracy and sorting information to prepare for data entry
- Create spreadsheets, templates and documents as requested for various events
- Secure information by completing database backups
- Create scripts to assist in tasks or fix issues (ex. Manual backup to company’s server)
- Enter invoices, vendor receipts, recipes, pricing, and additional information for business use
